

Consumer Protection

An auto dealer loophole in financial reform legislation puts consumers at risk.

It would give special treatment to loans offered by dealers, exempting them from the scrutiny of the newly created Consumer Financial Protection Bureau. As the nonprofit publisher of Consumer Reports, we know how important it is to keep consumers informed and protected. So let's fix this legislation before more consumers get run over by unscrupulous lenders.

PASS FINANCIAL REFORM THAT INCLUDES OVERSIGHT OF AUTO DEALERS.
