D. Data Source Tables	A-17
E. Coalition Statement of Principles	A-20
F. Undervaluation of HMOs.....	A-32
Endnotes.....	A-33

Acknowledgments

Three years ago, Consumers Union,¹ nonprofit publisher of *Consumer Reports* magazine, began a national effort known as the Community Health Assets Project. The project seeks to protect nonprofit charitable assets and to ensure that any potential adverse health impacts that may result from these transactions are mitigated.

The project is a joint effort of Consumers Union and Community Catalyst of Boston. The project is funded by the California Wellness Foundation, the Ford Foundation, the Commonwealth Fund, the W. K. Kellogg Foundation, the California Consumer Protection Foundation, the Rockefeller Family Fund, and the Public Welfare Foundation. We gratefully acknowledge the support of these foundations and Consumers Union.

Many of the materials for this report were obtained directly from former Deputy Attorney General James Schwartz of the California Attorney General's Charitable Trust Division in San Francisco, with whom we have worked closely and give our thanks. Other materials were located at the Attorney General's Registry of Charitable Trusts in Sacramento. Using an index maintained by the Attorney General entitled the "Index of Noticed Transactions," we were able to retrieve the individual files for many of the transactions described in this report. We extend our appreciation to Ms. Gail Wilson and Mr. Larry Campbell of the registry for their help in locating this information.

We also express our thanks to California's Office of Statewide Health Planning and Development ("OSHPD"). We particularly thank Ms. Karen Baker, a data specialist at OSHPD, who was indispensable in answering our questions.

Last, but not least, the authors are also grateful to the following people for their assistance with this report: Judith Bell, PolicyLink; Margo Hunter, Habeas Corpus Resource Center; Tyler Baldwin, City of Berkeley; Harry Snyder, Lynn Lohr, Diana Bianco, Evaluz Barrameda, Minerva Novoa, Robert Solorzano, Carol Rivas Pollard and Elisa Odabashian, Consumers Union.

¹ Consumers Union is a nonprofit membership organization chartered in 1936 under the laws of New York to provide consumers with information, education, and counsel about goods, services, health, and personal finance; to initiate and cooperate with individual and group efforts, and to maintain and enhance the quality of life for consumers. Consumers Union's income is solely derived from the sale of *Consumer Reports*, its other publications and services, and noncommercial contributions, grants, and fees. In addition to reports on Consumers Union's own product testing, *Consumer Reports* with approximately 5 million paid circulation, regularly carries articles on health, product safety, marketplace economics, and legislative, judicial, and regulatory actions affecting consumer welfare. Consumers Union's publications and services carry no outside advertising and receive no commercial support. The West Coast Regional Office of Consumers Union advocates in the California Legislature, administrative agencies, and other forums to protect the interests of consumers, particularly those of low and moderate incomes.
