

HOW DO YOU KNOW THE
HEALTH CARE BILL IS BAD FOR YOU?

**JUST
ASK US.**

Here's why we're opposed to this bill:

- Many families will have to pay higher premiums.
- If you're fifty or older, insurers could charge far more than they do now.
- Millions on Medicaid—including children, the elderly, and people with disabilities—would be cut off completely.
- People with pre-existing conditions could be priced out of meaningful insurance.
- Americans could face lifetime and annual limits on care.

Don't let Congress jeopardize your health. Speak up now—before it's too late.

Tell your senators to vote "NO" on the new health care bill.
