

Importance of Broadband Internet

In February 2021, Consumer Reports surveyed Americans about internet service.

*Not applicable, I do not use the internet at all.

76% agree or strongly agree that internet service is as important as electricity or water service in today's world.

Relying on the internet

75% of Americans say they need to access the internet, or use other services provided by their ISP (internet service provider), without disruption, to carry out their daily activities **seven days a week.**

86% of Americans need access **at least five days a week.**

4% do not rely on the internet at all.*

*Do not use it at all or use it but don't rely on it.
